

THE TRADE REVIEW  
AS MADE BY DUNBUSINESS SHOWS A SLIGHT  
FALLING OFF.

Shrinkage in Transportation is Common in August—Price of Wheat Falls Nearly 4 Cents During the Week—The Failures Have Been 222 in Number.

New York, Aug. 24.—R. G. Dun & Co.'s Weekly Review of Trade says: "The volume of business shrinks, as is natural in August, and the shrinkage seems rather larger than usual, because transactions in July were somewhat inflated for that month. Some industries are doing more than ever before in August and the prospects for fall trade is good in others, although much depends on the crops, and the outcome is less clear than speculators on either side are disposed to admit. Industrial troubles have not entirely ceased, but during the past week have become much less threatening.

"The price of wheat has fallen 3 3/4 cents during the week, recovering a fraction Thursday, in spite of all efforts to hold back supplies from farms and to encourage buying. Wheat ought to go abroad freely at present prices, but Atlantic exports, flour included, have been only 1,352,602 bushels for the week, against 2,694,764 bushels last year, and for four weeks only 4,348,632 bushels, against 10,937,447 bushels last year. Naturally the 57-cent wheat of the Pacific coast still goes forward freely in place of the Atlantic supplies. Corn has also declined 4 1/4 cents, while pork and lard, with accustomed inconsistency, rise a shade as corn declines. Cotton has advanced a fraction to 7.75, without any definite change in crop prospects, and as usual the immense volume of stocks carried over, in mills and commercial hands here and abroad, about 3,000,000 bales American, is by most traders not appreciated.

"In iron, notwithstanding some uneasiness because the output has greatly increased, heavy purchases by two leading companies have advanced the price of Bessemer 50 cents, and a new combination has raised galvanized barbed wire to \$1.80, while combinations are being formed in wire rods and common wire, and an advance in prices is expected. Other prices are unchanged, and the new orders for iron and steel products are not at present large.

"In cotton goods the demand is rather more active as the price of the raw material advances, but otherwise the business has not materially changed, and the quotation for print cloths is a shade lower this week.

"Sales of wool are again smaller than in 1892. But the speculative buyers still hold prices very stiffly and are supported by the strength in foreign markets. No market change appears in the demand for woolen goods, but this is increasing the apprehension shown by agents regarding the extensive sales of foreign wools.

"Failures for the week have been 222 in the United States, against 234 last year, and 43 in Canada, against 33 last year."

## CONVICT HOSPITAL BURNS.

Many Inmates of an Alabama State Prison in Danger.

Birmingham, Ala., Aug. 24.—The convict prison hospital of the Tennessee Coal, Iron, and Railway company, at Pratt Mines, Ala., where state convicts are worked in the coal mines, was burned to the ground at 9 o'clock yesterday morning. There were twenty or thirty inmates of the hospital at the time the fire was discovered. It originated in the chimney from a defective flue. With great difficulty the sick prisoners were rescued, as the building was of wood and burned with great rapidity. Tom Wesley, a life prisoner, was so overcome with the smoke and heat that his life is despaired of. Others were more or less injured by the smoke, but none fatally. The laboratory and surgical instruments, worth several thousand dollars, were totally destroyed. The building is also a total loss. There was some insurance.

## Form a Big Consolidation.

Providence, R. I., Aug. 24.—It is learned that the Mosler Safe company, of Hamilton, Ohio, the Mosler Safe and Lock company, of Cincinnati, and the Corliss Safe company, of this city, have been consolidated under the name of the Mosler Safe company, of New York, with a capitalized stock of \$1,000,000. M. Mosler, of Cincinnati, is president of the organization. The Corliss works at Auburn, which have been idle, are to be started immediately, and will be kept running in full capacity the year round.

## Rain Damages Iowa Crops.

Sioux City, Iowa, Aug. 24.—A terrific rainfall has occurred in parts of northwestern Iowa. Onawa reports 7 1/2 inches with a government gauge, and at Castana a foot is reported to have fallen. Considerable damage was done to crops by the enormous fall.

## Vice-President Stevenson Returns.

Tacoma, Wash., Aug. 24.—Vice-President Stevenson and party arrived from Alaska yesterday. The party started east this morning over the Canadian Pacific railroad.

## Western Association.

Peoria, Ill., Aug. 24.—The directors of the Western Baseball association met here yesterday and dropped the Denver and the Springfield clubs. The association will complete the season as a six-club organization, and a new schedule of games was prepared. The clubs retain their present percentages. One game was played yesterday, at Bloomington, Ill. Score: Des Moines, 6; Peoria, 5.

Rockford, Ill., Aug. 24.—Yesterday's game with Lincoln was called at the end of the third inning on account of rain.

## Western League.

Indianapolis, Ind., Aug. 24.—The Minneapolis club failed to appear on the field yesterday and the umpire awarded the game to Indianapolis by a score of 9 to 0.

At Kansas City, Mo.—Kansas City, 10; Grand Rapids, 4.

At Detroit, Mich.—Milwaukee, 4; Detroit, 2.

## Michigan State League.

At Owosso, Mich.—Owosso, 9; Adrian, 5.

At Jackson, Mich.—Jackson, 15; Port Huron, 7.

At Kalamazoo, Mich.—Lansing, 10; Kalamazoo, 7.

## HURT IN A MINE.

Serious Accident in a Petersburg, Ill., Colliery.

Petersburg, Ill., Aug. 24.—A serious accident occurred at the Hill Top mine here yesterday. The shaft is operated by the Chicago and Kansas City Coal Company. The injured:

Jack Ford, badly bruised and shoulder injured.

Patrick Hughes, severely bruised.

Adam Jurkins, badly crushed ankle.

Patrick Kelly, severely bruised and injured internally.

Peter Lawson, bruised.

John Limberg, knee dislocated and rib broken.

Andrew Munson, bruised.

August Nelson, leg broken and badly crushed below the knee.

As the engineer was lowering the men into the shaft the engine got the best of him and the cage containing ten men was dropped to the bottom of the mine and seriously injured nearly every man in the cage. At last accounts it is thought a majority if not all will survive the shock.

## World's Wheat Crop.

Buda Pesth, Aug. 24.—The minister of agriculture announces as a result of data obtained from consuls and specialists, that the world's wheat crop for 1895 is as follows: The total production in countries which import wheat is estimated at 749,022,000 bushels. In countries which export, the total production is 1,651,701,000 bushels. The minister also amends the estimate of the crop of 1894, so as to make the total in that year 2,632,736,000 bushels, showing that the crop of 1895 is 232,000,000 bushels less than that of 1894.

## Decides for the Bannocks.

Washington, Aug. 24.—Attorney General Harmon has instructed United States District Attorney Clarke of Wyoming to sue out writs of habeas corpus for the Bannock and Shoshone Indians who are under arrest at Evanston, Wyo., for violation of the state game laws. Attorney General Harmon holds that the hunting rights of the Indians, which were obtained by treaty with the United States, cannot be abrogated by the passage of state game laws. It was for violation of the state laws that they were arrested.

## Miners Will Win.

Terre Haute, Ind., Aug. 24.—The strike in the Indiana bituminous coal field is about over, and a victory is in sight for the miners, who have been holding out for last year's price, 60 cents per ton. Yesterday the Coal Bluff Mining Company started all of its mines with the exception of the Peerless, paying the price demanded by the men.

## Will Have the Bull Fight.

Cripple Creek, Colo., Aug. 24.—The bull fight will be held to-day at Gillette despite the threats and protestations of the Humane society. The projectors say the governor will not interfere, and they even claim he will accept their invitation to be present. The arena seats 10,000 people.

CUBA IS A NATION,  
DISPATCHES SAYCOMPLETE GOVERNMENT SAID  
TO BE FORMED.

Example of the United States Said to Have Been Followed in Framing the Constitution—Chinese Commissioners Said to Be Prisoners in Ku Cheng.

Philadelphia, Aug. 24.—News has been received that the Cuban insurgents have formed a complete government similar to that of the United States, at Neja.

Kansas City, Mo., Aug. 24.—The Cuban recruiting scheme has been given a setback by Gen. Joe Shelby, United States marshal, making the declaration that he would arrest any and every man who is connected with the scheme. It is Gen. Shelby's son Orville, himself a deputy, who is at the head of the movement. It is said nearly 100 men enrolled themselves yesterday.

Madrid, Aug. 24.—The semi-official El Nacional says that the government has decided to dispatch 100,000 men and all the ships to blockade the island of Cuba and crush the rebellion during the first months of 1896.

Gen. Salcedo has arrived at Corunna. He states that it is only a question of time and weather when Capt. Gen. Martinez Campos will "sweep the rebels into the sea."

## Chinese Commissioners Held.

London, Aug. 24.—A special dispatch from Shanghai says that the members of the commission which recently left Foo Chow for Cheng Tu in order to investigate the recent massacre of missionaries there, are virtually prisoners, and that Commander Newell, of the United States cruiser Detroit, has gone to Cheng Tu to consult with J. C. Hixson, the United States consul at Foo Chow, who is the leading member of the commission, about the landing of marines for his protection and for the protection of the other members of the commission.

Another special dispatch from Shanghai says that many Chinese converts were butchered when the American mission outside Foo Chow was attacked and the chapel and school wrecked by an infuriated mob the morning of August 22d. The dispatch adds that the Chinese officials are jubilant at the defeat of the efforts of the American and British consuls to obtain an open inquiry into the massacres. It is also said that the delay is giving the Chinese time to prepare a defense for the prisoners.

## China Is Insolent.

Shanghai, Aug. 24.—The Chinese government has made a most extraordinary appointment in connection with the outrages upon the English missionaries. The formerly degraded Liu, who is generally regarded as the actual originator of the Cheng-Tu riots, has been definitely appointed imperial high commissioner to investigate the circumstances which led to the outbreak and the facts connected with the outrages themselves. The appointment has caused the utmost dissatisfaction and indignation among the foreign residents.

## Twenty-five Thousand Out.

Dundee, Aug. 24.—It is now estimated that 25,000 mill workers are out on strike. They have agreed to resume work if they are granted an increase of 5 per cent in their wages instead of 10 per cent, which they at first demanded. The manufacturers met yesterday and signed an agreement not to advance wages under the penalty of £500 for a violation of this agreement.

## Killed in a Church.

Vienna, Aug. 24.—During the celebration of mass in a church at Rogozno, Galicia, a panic was caused by the upsetting of a taper. During the confusion three persons were killed and many were injured.

## NO FEAR OF TROUBLE.

Case of Ex-Consul Waller Will Be Amicably Settled.

Paris, Aug. 24.—It is semi-officially announced that the French government has granted the request of Ambassador Eustis to allow a representative of the United States embassy to visit John L. Waller, under the usual prison regulations. It is stated, however, that no further steps can be taken until the papers in the case arrive. It is understood that pressure has been brought to bear upon Mr. Eustis from Washington, in view of the strong representations made in the American newspapers on the subject, and that nothing will be left undone to arrive at the true facts in the case. The negotiations between the two governments are said to be proceeding in the most friendly spirit.

## To Connect Lakes Erie and Michigan.

Fort Wayne, Ind., Aug. 24.—The scheme to bring the Lake Erie and Lake Michigan Ship canal through Fort Wayne was boomed in a big meeting here last evening. The routes and surveys of the United States government were explained by Dr. W. F. Harris, of Cincinnati, who made the principal address. He showed that the canal would be of incalculable value to Fort Wayne. By following the Maumee to its headwaters in this city it is believed a less expensive route and one almost as direct could be laid out.

OHIO HOTEL HORROR  
COSTS THREE LIVESFATALITIES CAUSED BY A FIRE  
LAST NIGHT.

Hot-lat Air Line Junction Destroyed in an Early Morning Blaze—Big Fire at Cleveland, Ohio, Does Heavy Damage.—Losses Elsewhere About the County.

Toledo, Ohio, Aug. 24.—At 11:50 o'clock last evening the Air Line Hotel at Air Line Junction, about four miles from this city, was seen to be burning. An alarm was at once turned in, but when the department arrived the entire building was in flames. Nearly all the guests escaped with only their night clothes and three were unable to get out of the building. One, Timothy McCarthy, from Hillsdale, Mich., was taken from the building soon after the arrival of the department, but was badly burned and died before reaching the ground. There were still two unknown men in the building, but the fire was burning so fiercely that their bodies could not be recovered.

The building was a large frame structure and dry as tinder. Several small buildings in the vicinity were also burned, and the loss will probably reach \$20,000.

## BIG FIRE IN CLEVELAND.

Immense Damage Done by an Early Morning Blaze.

Cleveland, Ohio, Aug. 24.—Fire broke out in the Williamson Block, on the southeast corner of the public square, at 1 o'clock this morning. It smoldered for half an hour and the firemen could not locate the seat of the flames. At 1:30 o'clock, almost without warning, the building burst into a sheet of flames, and it was seen that the building was doomed. Adjoining the Williamson Block on the north is the Cuyahoga Block, a magnificent ten-story building, and one of the costliest and handsomest in the city.

## Altoona, Pa., Tannery Destroyed.

Altoona, Pa., Aug. 24.—Fire last evening destroyed the tannery company's extensive buildings at Irvona. Assistance was asked of neighboring towns and a steamer was sent from this city. At 10 o'clock the fire was spreading through the bark sheds, but on the arrival of the Altoona engine soon after that hour it was got under control. The loss will probably reach \$75,000.

## Big Table Factory Burned.

Shelbyville, Ind., Aug. 24.—Fire broke out last night in Conroy, Bierly & Co.'s table factory, and it was totally destroyed. The loss is estimated at \$55,000, two-thirds insured. The factory was the largest of its kind in the world.

## STILL SHIPPING GOLD.

Three Million Dollars in the Yellow Metal Gone During the Last Week.

New York, Aug. 24.—The treasury department at Washington was informed yesterday of the withdrawal of \$935,000 in gold from the subtreasury in New York for export. This will reduce the gold reserve to \$100,829,524. The total loss of gold since last Saturday, exclusive of the withdrawal yesterday, is \$3,200,000, and the net loss is \$699,847. The syndicate deposited \$2,000,000, and \$500,151 in gold was added to the reserve from miscellaneous sources. The government bond syndicate deposited \$200,000 in gold in the subtreasury at Boston Thursday, and yesterday deposited an additional \$500,000 in gold. They took legal tenders in exchange for the entire amount. Mr. J. Pierpont Morgan explains that the \$7,000,000 gold was deposited in the Boston subtreasury to be transferred to the subtreasury in this city to be held for the further disposition of the syndicate.

## Foreign Ministers in Danger.

Washington, Aug. 24.—If there is anything in current rumor there will be changes made in more than one of our foreign missions. The quiet talk about the state department would indicate that Secretary Olney and President Cleveland are dissatisfied with the management of affairs by two or three prominent representatives abroad. It is declared that Ambassador Eustis and Minister Denby are both on the verge of recall, and that Minister Ransom is not certain of going back to Mexico.

## New York Concern Insolvent.

New York, Aug. 24.—Arthur M. Sanders has been appointed by Judge Beekman, in the Supreme Court, as receiver of the property of the Provident Fund Society, who says the society is insolvent and unable to meet its obligations. The company was incorporated in March, 1886, to do a casualty insurance business on the co-operative assessment plan. The assets of the corporation are \$5,846.82, while the liabilities amount to \$34,288.5.

## Gumby Hotel Engineer Arrested.

Denver, Col., Aug. 24.—The police have been notified of the arrest of Elmer Loescher, the missing engineer of the Gumby Hotel, at Antonio, in the southwestern part of the state. It is alleged that he admits that he and he alone is responsible for the terrible disaster by which twenty-two lives were sacrificed. Loescher will be brought to Denver in the morning.

CASE OF LEPROSY AT FIRST LAKE  
Report From Rutland States a That Victim  
Has Been Discovered.

Madison, August 24.—A report from Rutland has it that a case of leprosy has been discovered near First Lake.

## BIG GAS WELL STRUCK IN OHIO

Wauseon, Ohio, Aug. 24.—The largest gas well in the state was discovered while drilling for a well this morning.

## CAPTURE THE GANG.

Band of Indian Territory Outlaws on the Eve of Extermination.

Ardmore, I. T., Aug. 24.—An encounter between the Christian gang, which broke jail at Oklahoma City several months ago, and a posse of United States marshals in charge of Ben Goode, took place shortly after daylight yesterday morning, six miles west of Purcell. United States Marshal Jake Hocker was shot and mortally wounded and Bob Christian shot, but how serious his injuries are cannot be determined, as when his horse was cut down from under him and he was shot by Deputy Hocker, his brother, Bill Christian, rode out of a thicket and, placing his wounded brother on his horse ahead of him, the two made good time and escaped. Two strong posses of marshals were organized and left here at 10 o'clock for the front. The latest advices from the scene are to the effect that the marshals are in close pursuit, and the gang's capture is surely expected. This gang of outlaws has been terrorizing the people of this section of the territory ever since their escape from the authorities at Oklahoma City, and they have been very bold in their acts of depredations and robbery. When they are captured and landed behind the bars of some good jail the people, bankers, merchants, and railroad and express companies will feel better. It is almost impossible for the gang to escape this time.

## KEIR HARDIE HERE.

English Labor Leader Will Lecture in This Country.

New York, Aug. 24.—Among the passengers who arrived yesterday on the Cunard steamer Campania was J. Keir Hardie, M. P., president of the English Labor party. Hardie came as a second-cabin passenger, and will lecture in this country. He was accompanied by Frederick Smith, secretary of the London Labor Federation, and was welcomed by a delegation from the Central Labor Federation of New York.

In a speech to the delegation Mr. Hardie said: "Socialist through and through, that's what I am. The Independent Labor party of Great Britain, of which I am president, wants the collective ownership of all instruments of production and distribution. In the constitution of the Independent Labor party its object is set forth: 'An industrial commonwealth founded upon the socialization of land and capital.' These are the methods: 'The industrial and political organization of the workers and the independent representation of socialistic principles in all elective bodies.' My constituents want to be separate and distinct from all other political organizations."

## EFFECT A COMPROMISE.

Fight Over the Affairs of Illinois' Late State Treasurer Ended.

Carlyle, Ill., Aug. 24.—A compromise has been consummated between Henry Seiter, the insolvent Lebanon banker, and the Chicago bondsmen of the late State Treasurer Ramsay. Ramsay had loaned something over \$243,000 to Seiter, who gave notes for that amount, and which were found in the treasury vaults after Ramsay's death. This represented a part of the defalcation of the treasurer. The bondsmen's claim against the Ramsay estate is \$363,509, and by this compromise this claim is credited with \$257,629, which represents the Seiter indebtedness. With this credit and other collaterals held by the bondsmen, the claim is reduced to less than \$100,000, which brightens the prospects of home creditors. If a satisfactory compromise of this claim can be made, the local creditors will receive 50 per cent.

## GOLD MEN REJOICE.

National Zeitung Comments on Mr Balfour's Statement.

London, Aug. 24.—The Times Berlin correspondent says that the supporters of the gold currency are jubilant at the statement made by A. J. Balfour, first lord of the treasury, in the House of Commons, to the effect that the English government will take no steps looking to an international bimetallic conference. "The National Zeitung," the correspondent adds, "says that he has burst the soap bubble which the German bimetalists blew from the votes in the Reichstag and the Prussian diet. Undoubtedly Mr. Balfour's statement will put an end to the deliberations of the federal government on the question. Only noisy agitators believe that action is possible without English co-operation."

## Hill to Have Control.

Chicago, Ill., Aug. 24.—Should present plans be carried out to effect the reorganization of the Northern Pacific will present a situation unparalleled in the history of American railroads. J. J. Hill, president of the Great Northern road, the active rival of the Northern Pacific, is to have absolute control of the property. There will be no consolidation. Each road is to be operated separately.

## Passenger Train Wrecked.

Kalamazoo, Mich., Aug. 24.—The passenger train on the Kalamazoo & South Haven road due in this city at 6:20 p. m. was wrecked three miles east of Grand Junction at 5:40 p. m. last night by a collision with a large tree which had been blown across the track by a storm. The engine went into the ditch. A wrecking train has just gone to the scene.

## Detective Powers Is Dead.

Grand Rapids, Mich., Aug. 24.—Detective George W. Powers, of the city police force, who was shot Thursday, presumably by one of the Fennville train robbers, is dead. No valid clue to the assassins has been obtained. Fuller descriptions of the men seem to weaken the theory that they were members of the train-robbing gang. There is now a strong belief that they were members of the party who broke jail at Toledo on August 17.

GOOD ROAD RALLY  
MEETS ON OCT. 17PARLIAMENT CONVENED BY  
SECRETARY MORTON

National Government Back of a Meeting to Be Held in Atlanta This Fall to Discuss Highway Improvement—Agricultural Department's Estimate on Wheat Upheld.

Washington, August 24.—J. Sterling Morton, secretary of agriculture issued a call today for a road parliament in Atlanta Oct. 17. The chief of the division of statistics of the Agricultural Department declares that there has been no dispatch of any kind since August 10th relating to crops and their condition authorized by any one connected with that division. The published estimate is still adhered to and no intimation of any change in the original figures has been given out.

## CLEARING UP A MYSTERY.

Minneapolis Police in a Fair Way to Avenge a Murder.

Minneapolis, Minn., Aug. 24.—Mrs. Nora Perkins was arrested Thursday night, charged with the murder of her sister, Mrs. Louise Hawkins, the supposed motive for the alleged crime being the fact that Mrs. Hawkins had \$7,000 insurance on her life. Mrs. Hawkins died August 9, four hours after the overturning of a lamp near a bed where she lay ill. The fire was supposed to be accidental, but a similar accident had occurred several weeks before and this aroused the suspicions of the police. The sisters are widows and Mrs. Perkins has one child. Mrs. Hawkins' burns were so serious that she died in great agony without being able to tell what had happened. The police absolutely refuse to disclose the nature of the evidence.

It is understood the state expects to prove that the bed clothing was saturated with oil and ignited, and the lamp overturned to conceal the crime. On the other hand the defense claims to have ante-mortem statement of Mrs. Hawkins to the effect that she overturned the lamp herself accidentally. No one is allowed to see Mrs. Perkins in the lockup, but she is cool and unruffled. She will be arraigned on Monday and held while an inquest will be held, the coroner having at first declined to hold an inquest, as the death seemed evidently accidental.

## HAVE ONE TRAIN ROBBER.

Engineer of the Held Up Nebraska Train Identifies Him.

Gothenburg, Neb., Aug. 24.—George C. Ostrander, who was arrested by Deputy Sheriff Strahle, was brought to Gothenburg, and taken from here to North Platte, where he was identified by the engineer as the man who held him up.

A special train containing a car of horses and another of buggies was run from North Platte to Brady Island yesterday, and more than 200 men were sent into the country north of Brady. Every effort is being made to capture the robbers. Detachments have been sent out from Arnold, Gandy, Broken Bow, and Callaway, and it seems impossible for the robbers to escape.

## Ohio Bank Goes Up.

Cincinnati, O., Aug. 24.—The First National bank of Franklin, Ohio, has suspended.

The cause of suspension is stated to be a falling off in deposits and the holding of discounted paper that will not mature in time to meet obligations. The president is C. M. Anderson; cashier, W. A. Boynton. It has a capital of \$100,000 and its last statement showed a surplus of \$20,000 and undivided profits of \$38,000. It is the general impression that the depositors will be paid in full, as the assets are largely in excess of liabilities. The deposits are said to be only \$100,000.

## Working for Mrs. Maybrick.

New York, Aug. 24.—Mrs. Ida Trafford Bell of 319 West Forty-fifth street, the American treasurer of the Woman's International Maybrick association, said yesterday that a culmination of the association's efforts to obtain a rehearing for Mrs. Florence Maybrick, under a life sentence in Woking prison, England, for the alleged murder of her husband, will be reached within the next few weeks.

## Passenger Train Wrecked.

Kalamazoo, Mich., Aug. 24.—The passenger train on the Kalamazoo & South Haven road due in this city at 6:20 p. m. was wrecked three miles east of Grand Junction at 5:40 p. m. last night by a collision with a large tree which had been blown across the track by a storm. ## FROM A BLOODY LAND KASSABIAN COMES

### YOUNG ARMENIAN TELLS OF THE MASSACRES.

Descendants of Japhet Are Held in the Hollow of the Turk's Hand and Can Make No Resistance—Student Dares Not Return From America.

N. H. Kassabian, who will address the union meeting tomorrow evening on Armenian massacres is attending the Northwestern University Medical College in Chicago and expects to graduate next year and go to his native land.

"If I tried to go to Armenia today," he said to a Gazette reporter, "I should find myself in a Turkish jail instead of going to my home on the river Euphrates, about two hundred miles west of Mount Ararat."

During his vacation Mr. Kassabian has been working to awaken interest in the Armenian cause. He has arranged meetings in Kenosha, Racine, Milwaukee, Wauwatosa, Waukegan and Whitewater. The objects of these meetings are to express sympathy for Armenian Christians and pass suitable resolutions for presentation to the state department in Washington. Copies are also to be sent to the British foreign office in London and a copy sent to Right Hon. Wm. E. Gladstone and the London Daily News.

Mr. Kassabian insists that the easiest way to prevent the recurrence of these massacres of Christian Armenians is to appoint a high commissioner for Armenia, who will be neither an Ottoman subject nor a present officer of the Turkish government and who will be directly responsible to the signatory powers of the Berlin treaty of 1878. Baron Von Kalay, the minister of foreign affairs of Austria-Hungary in 1882 is suggested but probably an American who has nothing to do with the politics of the Orient may be a still better one for that high position.

Descendants of Japhet  
As to the origin of his race Mr. Kassabian said:

"Armenians are the descendants of Japhet, and Haig his grandson was their ancestor. He fought against Bel, the Babylonian tyrant, the first battle in defense of monotheism. Bel acted as an advocate and propagator of polytheism but was defeated by Haig our patriarch. It is true my ancestors did not adhere to monotheism. After a few centuries their notion of one God dimmed into polytheism in consequence of their coming in contact with stronger and more influential nations in the Orient. Then they began to worship the luminaries of heaven—Venus for example. Diana was their favorite goddess, but when Christian came to spread, Armenians were quick to adopt it. Thaddeus was the first apostle who preached the gospel to the Armenians. The bible was translated into Armenian in the latter part of the third century by Mesrob, who was also the inventor of our alphabet consisting of thirty-nine letters.

Persecuted for Religion.  
"It is because of our religious convictions that we have been so persecuted. We are very anxious to arouse public sentiment on the question here, for the attitude of this republic has a very important bearing upon that of Great Britain. Gladstone says, 'America being so far removed from the seat of eastern politics, and being disinterested in the Oriental questions, its public sentiment has a great influence upon the Turkish authorities at Constantinople. Governments always take action according to the dictates of public sentiment.'"

"Do you represent any society?"  
"Yes, sir. I have the honor to represent the Chicago Friends of Armenia and have a letter of introduction from the secretary, Mrs. W. E. Holmer, 2333 Indiana Ave. This society is organized with the same objects as the Boston Phil-Armenian society, whose president is Julia Ward Howe. According to its constitution the main object of these societies is to interest the American public in the history, literature, folk lore religion and the present condition of Armenia."

While in Racine Mr. Kassabian organized the Racine Phil-Armenian society, the mayor of the city being its honorary president and E. C. Dean the editor of the Racine Journal is the active president. He is anxious to organize a similar society here and will if he finds interest enough manifested tomorrow night at the union meeting at the Baptist church.

## CANT USE MERCANTILE STYLE

Doctors and Lawyers Must Advertise in Different Fashion From Others.

While I believe in advertising, by the profession, I do not believe in doing it as I would advertise merchandise says J. F. Place in Printers' Ink. It should be done in a clear, direct and dignified manner; the commonplace, conversational style will hardly do and the bomb shell style certainly will not. But I do not believe in thin skinned creed that prevents a respectable and able physician or lawyer from announcing the fact that he is in the profession 'for keeps' same as the rest of us are in trade, and that he will serve all who require his service or advice faithfully to the best of his liability.

There is an unwritten law in most newspaper offices that the latchstring to editorial favor can only be reached through the advertising columns. This confession, for I speak as a newspaper man, is no disparagement to the conduct of American newspapers; nor does it reflect on the fidelity and independence of the editor at all. It simply means that the principle which governs the personal courtesies shown a large depositor by a banker, or a large buyer by a merchant, can be a promptly and effectively recognized by a newspaper towards its best patrons, and without reflecting upon its integrity one whit more than in case of banker or merchant.

## CREEKS FURNISH NO WATER.

Edgerton Uses Hens for a Gravel Bank This Dry Weather.

Saunders' creek, which runs through Edgerton, and which in an early day furnished a considerable water power, and for a number of years maintained a grist mill, has failed so completely this year that the bed of the stream has been entirely dry all through August except for a few pools. It has furnished no running water except in the vicinity of springs, for the past two weeks. The flow of the Catfish river fed by all the four lakes about Madison, is less than ever known before, the power at Fulton being the only one on the stream that can be operated. It is possible to walk across the river in many places without wetting one's soles.

## NELS DALEN HANGS HIMSELF

Love Affair Played a Part in the Young Norwegian's suicide.

Nels Dalen, a young man about twenty years of age, committed suicide by hanging himself in a tobacco shed at his brother-in-law's place, according to the Edgerton Reporter. He returned from a visit to Norway this spring and was working for Knute Springer. He made frequent calls on a young woman working for his brother and Sunday evening he paid her a visit, staying at his brother's house that night. Early the next morning he was found in the shed, having used one of the lines of his harness to hang himself with.

## MAYORS TO CHOSE AN UMPIRE

Hot Ball Game Will Be Played Here By County Teams.

There will be yelling in Janesville Tuesday September 3. Edgerton and Evansville are coming down 500 strong to see their clubs play the decisive game. Representatives of the two clubs have arranged all the details. The selection of the umpire was left to the mayors of the two towns, W. S. Heddles of Edgerton and P. C. Wilder of Evansville.

## TEMPLARS GO EAST IN A SPECIAL CAR

### JANESVILLE PARTY LEAVES AT 12:40 FOR BOSTON.

Grand Senior Warden Goldin in Charge Wisconsin Special Will Be Joined in Chicago This Evening—How the Itinerary Reads—Sunday at Niagara.

A car load of Knights Templar and their ladies left Janesville for the east at 12:40. Senior Grand Warden T. W. Goldin was in charge.

The car was the Wagner "Germania" and had twelve sections. These were the occupants: Col. and Mrs. T. W. Goldin and son, Mr. and Mrs. George Brink, Miss Kate Buckley, Mr. and Mrs. E. C. Sherwood and Mrs. David Field, Janesville. Mr. and Mrs. Charles Menzies, A. S. Jackson, F. Sage and I. Rosenblatt Beloit.

A. C. Gray, Mr. and Mrs. L. B. Fellows, B. F. Woodbury, Mr. and Mrs. B. Campbell, Mr. and Mrs. W. E. Campbell, Mr. and Mrs. W. T. Boyd, Mr. and Mrs. A. Eger, Dr. and Mrs. J. M. Evans and Mrs. F. A. Baker of Evansville, M. Ehringer and T. H. Inman, Hanover.

Miss E. C. Smith, Madison.

Leave Chicago This Evening.

The car will be attached to the Wisconsin special in Chicago and will leave at 7 this evening over the Michigan Central for Niagara Falls. The train arrives at St. Thomas, Ont., at 7 a. m., Sunday morning for breakfast; arriving at Niagara Falls at 10 a. m., where a halt will be made until 7 p. m., when the train will leave for Boston, taking breakfast at Springfield, Mass., at 8 Monday morning and reach Boston about noon. The cars of the special will be given up on arrival at Boston, as the party will return at various times and over different routes. The final return limit of tickets will be extended to October 3.

Janesville Banner & Boat.

Banners inscribed, "Janesville Commandery, No. 2, Knight Templar" decorate the Janesville car as it rolls east.

The party from this state will be quartered in the New England Conservatory of Music building, and have windows looking out on the Franklin Square reviewing stand. Such windows are being rented in Boston at forty and fifty dollars, so the Janesville excursionists feel that they are fortunate.

One of the most important of recent decisions regarding the ticket sale, which began on Monday last, is that some of the eastern lines have announced stop over privileges on the going trip, so that the tickets, which sell for \$22 for the round trip from Chicago and can be used by anyone purchasing them, can be used as far as New York city or Albany, it not being necessary to proceed to Boston at all unless the final extension of time is desired.

## MILLS TIED UP NEAR LAKE GENEVA.

Water Level Company Interferes With Manufacturers in Benefiting the Lake.

Unless the Lake Geneva Water Level company is prevented from carrying out its plans, the Lyons flour mill and the Burlington mill and electric light plant will be tied up. The Water Level Co. has shut off the water from Lake Geneva and proposes to raise the water level of the lake. Doing so at this dry time threatens to close down the Lyons and Burlington mills. Legal steps will be taken to secure relief.

## VALUABLE DOG DRANK DYE STUFF

Charles Downing Brings His Dog Here for Relief From Poison.

Charles Downing came near losing his valuable hunting dog while on a recent prairie chicken hunt. The dog ran through a yard and discovered a pan of dye stuff used for coloring carpet rags. He drank freely. His owner hurried to town with him and Dr. Roberts hopes the poison may be counteracted.

## SHOT HIS PLAYMATE AND FLED IN TERROR

### WILL NEIMAN STILL HIDING IN THE WOODS.

His Back Was Turned to the LaBreck Boy When the Fatal Shot Was Fired But He Was Overcome By Fear and Fled From the Neighborhood.

Frightened Willie Nieman is still hiding in the woods, dreading the consequence of a playmate's killing.

Ever since Sunday friends have sought him in vain.

Tuesday and Wednesday two hundred and fifty men were beating the country. The story as told by eye witnesses is that several boys were bathing in Wilkinson's creek south of the state line and while some were in the water some were lying on the ground on the bank of the creek. A son of Charles LaBreck, aged about sixteen years, had brought his gun along to shoot woodchucks and laid it on the ground near by. Nieman, who is about seventeen years of age, took the gun from the ground and as he raised it it discharged the contents, striking the LaBreck boy in the left eye and temple killing him instantly.

It was purely accidental, the Nieman boy having his back turned to the other at the time of the discharge of the gun, but as soon as he saw what he had done he ran as fast as he could to a corn field near by and disappeared.

He was seen by Mr. Friday on the state line and later by Mr. Voss' children on Mr. Godfrey's farm, and last by H. S. Bell in the road west of Walworth village. Since then no trace of him can be found, although farmers have been searching for him day and night.

## THE DOG'S ORIGIN.

Some Interesting Facts About Man's Most Faithful Friend.

Although the recent discussion of the origin of the dog cannot be said to have settled the long-controverted question, there seems to be a decided drift of opinion among naturalists to the theory that our numerous varieties of domesticated dogs are descended not from a single species, but from several kinds of wild animals, as, for instance, the wolf and the jackal. There are recorded examples of tamed wolves, which in gentleness, love for their masters and intelligence showed a truly dog-like capacity. With regard to tamed jackals, Darwin has pointed out that, when caressed, they jump about for joy, wag their tails, lower their ears, lick their master's hands, crouch down, and even throw themselves on the ground, feet upwards. When frightened they carry their tails between their legs. On the other hand, it is understood that, whatever animal we may consider his progenitor, the domestication of the dog began at an epoch exceedingly remote. The fossil remains of a large dog have been found in tertiary deposits, and there is no doubt that the dog existed in a domesticated state during prehistoric times. His bones are discovered in the shell-heaps of Denmark and in the lake dwellings of Switzerland. The dog meets us in the dawn of history, for such varieties as the hound, greyhound and watchdog are depicted on Egyptian monuments five thousand years old. It is well known that in Egypt the dog was worshiped under the title of Anubis, and dog mummies have been found. There is a mastiff figured on an Assyrian sculpture belonging to 640 B. C. The fact is often overlooked that dogs were used by the Greeks and Romans not only in the chase and for hunting down escaped prisoners, but for war, being armed for that purpose not only with spiked collars, but with a coat of mail. It is said that Corinth was on one occasion saved by fifty war-dogs, which foiled a night attack of the enemy, fighting until all were killed but one, which succeeded in arousing the garrison. It is worth noting that, according to some naturalists, the Newfoundland and St. Bernard dogs form a group by themselves, derived neither from wolves nor jackals, but from a distinct species of progenitors. It is a disputed question whether the Newfoundland dog is indigenous to North America or was introduced either by the Norwegians in the year of 1000 or by Cabot in 1497. Bearing on this question is the interesting fact that the Norwegians have dogs closely resembling the Newfoundland breed. The Dingo dog of Australia does certainly seem to constitute a distinct, indigenous species, since it is now found in both a wild and a domesticated state in that country, and its fossil remains are associated with those of extinct mammals.

## A ROMANCE IN ALASKA.

Count de Lancelotti and His Daughter, Who May Become an Heiress.

Juneau, Alaska, has a Russian romance, or what it fully expects will develop into a romance, and it is almost as interesting a subject for discussion as the new gold fields. When Count de Lancelotti, a young Russian, visited Juneau eight years ago, he was 22 years old, and he followed the example of other visitors before him. He took an Alaskan maiden as his housekeeper. She was attractive in features and affectionate in disposition. A girl, named Lucy, was born to them, and the young count was devoted to her. He was satisfied with his housekeeper and very fond of his little daughter. He decided to remain in Alaska and enjoy his new possessions. The count conceived the idea of building a castle on Point Lookout, overlooking the town, and set men at work felling trees and building the foundation. A cyclone came along and blew the men and the lumber off Point Lookout, and the count changed his plans. He bought a lot of land in the plateau valley below and set a gang of men at work clearing it. After he had spent several thousand dollars in this preliminary work his father, ordered him to return to Russia. Before leaving he decided over ten lots in Juneau, three lots in Douglas City, and a cannery site at Cape Fanshaw to his daughter Grace.

The count said good-by to his Alaskan family, and left his daughter in the care of Frank Starr of Juneau. Since the count's return to Russia his father has died, and he is now in possession of large estates. Frank Starr is now in correspondence with him, and he believes that the count will provide generously for his daughter. So it is among the possibilities that this waif in time may become an heiress and a young woman of some importance in Russia as well as in Alaska.—St. Paul Pioneer Press.

## Almost Killed by a Tooth.

Orville Barker, a young man living near Mansfield, Ill., is recovering from a peculiar case of sickness. About two months ago he noticed that he was gradually weakening. This was accompanied by a cough, and he began doctoring for catarrh, thinking that was the trouble. June 28th he had a very bad hemorrhage of the lungs, followed by increased weakness. On the following Sunday he was taken to bed and gave every symptom of hasty consumption. A few days ago, during an extra hard coughing fit, he coughed up a small piece of hard substance, which the doctor pronounced to be a portion of a tooth. It was then remembered that a short time before he began to experience any weakness he had a tooth pulled while under the influence of an anesthetic, and as the tooth was ulcerated the dentist had some trouble in extracting it. In twisting it a small portion was rasped off and it was supposed to have gone into the lungs.

## HIS MALADY FEIGNED.

California Courts Have No Sympathy for Reporters Who Sham Insanity.

A sad blow at "journalistic enterprise" has been dealt by an unfeeling judge in California. An ambitious young reporter on the Los Angeles Herald, who had wearied of ordinary assignments, conceived the idea of winning fame by getting up a sensation. So he feigned insanity, was brought before the court for examination, was pronounced a subject for the asylum, and was sent to the state institution at Highlands. After staying long enough to get material for a good "story," he wanted to get out, but in order to secure his release, was obliged to tell the whole story of his deceit. The judge who had committed him cited him to appear to answer the charge of contempt of court, and sentenced him to pay a fine of \$200 or serve 100 days in jail. The judge accepted the plea that no disrespect for him personally had been intended, but explained that contempt of court was not an offense against the person of the judge, but against the government, because it is an unlawful interference with the orderly administration of justice by the tribunals created for that purpose. In this case the reporter, by deceit, had caused the machinery of justice to be set in motion, involving considerable public expense, and when brought before the court acted in a disorderly and insolent manner to induce the court to make an improper and illegal order. The judge proceeded to express these views upon the plea that a journalistic criminal ought to be treated more leniently than one not in "the profession." "Possibly from the standpoint of a reporter, such conduct may seem right and proper. It is possible even that in some quarters an attempt to deceive a court of justice, and by deceit to procure an improper and illegal order—an order involving the expenditure of considerable public money, and resulting in the sending of a sane man to an insane asylum—may be looked upon as legitimate journalistic enterprise. I hardly think, however, that upon sober second thought, any citizen would so regard it. One who embarks upon such an enterprise—an enterprise which involves a violation of law, an enterprise which involves the commission of a public offense—must abide the consequence."

## QUEER MONEY.

The Circulating Medium That a Traveler Found in Mexico.

Here is an amusing account of a traveler who went many years ago to Mexico, and found the natives using a strange kind of currency. Says he: "In one of the small towns I bought some limes, and gave the girl one dollar in payment. By way of change, she returned to me forty-nine pieces of soap the size of a small biscuit. I looked at her in astonishment, and she returned my look with equal surprise, when a police officer, who had witnessed the incident, hastened to inform me that for small sums soap was legal tender in many parts of the country. "I examined my change, and found that each cake was stamped with the name of a town and of a manufacture authorized by the government. The cakes of soap were worth three farthings each. Afterwards, in my travel, I frequently received similar change. Many of the cakes showed signs of having been in the wash-tub; but that I discovered was not at all uncommon. Provided the stamp were not obliterated, the soap did not lose any value as currency. Occasionally a man would borrow a cake of a friend, wash his hands, and return it with thanks. I made use of my pieces more than once in my bath, and subsequently spent them."—Harper's Round Table.

## Signs in the Desert.

Signs in the desert, indicating the trails and giving directions as to the nearest springs and wells of fresh water are to be erected by Arizona and California in the desolate regions on either side of the Colorado river, where so many tragedies have occurred through miners and others losing their way or dying from thirst. The signs are high poles of gas pipe, with big squares of sheet iron at the top and are painted red, as that is the color that can be seen the greatest distance in that region. The lettering will tell the distance from point to point and the location of the nearest water holes.

## NEW CYCLING WRINKLES.

A "Cork-Soled Pneumatic Tire" and an Electric Searchlight.

A thousand minds are busy inventing appliances to increase the speed, usefulness, comfort and portability of the bicycle. One man has patented what he calls "the cork-soled pneumatic tire." Half of the space now occupied by compound air is taken up with a semi-circular filling of cork, which is at once light and yielding and which the inventor claims will prevent punctures. He is willing to ride with his cork-soled pneumatic tires over miles of tacks, broken glass and newly spread macadam, and seems to think he has made a big discovery.

Another man sends in a plan of a home-made bicycle lamp that will not go out. An ordinary thin, straight drinking glass is first deftly removed of its bottom. Then the exterior is painted a dead black, with the exception of a small bull's eye. The top and bottom are filled with thin cork, in which holes are left for ventilation, and the light is furnished by small wax candles, such as are used on birthday cakes and in so-called fairy lamps. The wax candle, it is claimed, will not go out through vibration as readily as an oil lamp. It will burn for two hours steadily, and extra candles may be carried conveniently.

As for saddles, not a day passes without the invention of some new one, founded on anatomical or other principles. There are pneumatic saddles and coiled-spring saddles, aluminum saddles, horn saddles, saddles on springs and saddles set firmly; racing saddles, long-distance saddles, cantle saddles, single or double "lugged" elastic truss saddles, and many more that differ from others only in the merest detail.

A New England firm has placed upon the market a novel electric lamp, several of which have been seen during the week on the boulevard. The lamp, a small incandescent affair, is attached to the visor of the cap. A small storage battery of eight hours' capacity is carried on the wheel or in the pocket with a body wire leading from it to the terminal points on the back of the cap. The lamp in front is detachable in like manner, and weighs about one and a half ounces. In its very nature it is a true searchlight, the light always being focused in the direction that the rider is looking, and, being on the visor, the eyes are protected from the glare.

## A COSTLY MISTAKE.

By Using Too Many Letters the Telegraph Company Was Out \$5,841.

The insertion of the letter "r" in the name of H. W. Baker promises to cost the Western Union Telegraph Company about \$6,000. In the suit brought by Baker to recover \$7,160, loss caused by the delivery of a dispatch from Australia to Abram Barker, a jury in the United States Court the other day returned a verdict for the plaintiff for \$5,841.51, after deliberating about an hour. Judge Hanford, instructed the jury that a telegraph company was charged with the duty of exercising a high degree of care as to promptness, and that any neglect entitled the parties injured to damages. Baker's measure of damage was the amount he would have realized had he accepted a cabled offer, less the amount he received, says the Seattle Post-Intelligencer. The defense moved for a non-suit on the ground that the terms of the telegraph blank especially exempted the company from any damages either for mistake or delay, and also as the error was made in Australia by a connecting line, no responsibility could attach, particularly as the cablegram was addressed "Barker," and was actually delivered to "Barker." Mr. Lewis, for Baker, insisted that conditions in a telegraphic message exempting the company from losses could only apply to a sender, not to one receiving the cable; also that, though the error was made in Australia the Western Union was liable, as it contracted with the Australia company as its agent, and that the mere fact that the message was addressed "Barker" could not excuse the failure to deliver to Baker, where the contents of the message could show it was for the commission merchant. The non-suit was refused. The case will probably be appealed.

## Duchess of York on a Wheel.

Divided skirts and bloomers have been dignified by the name of "rationalists" in England, where the bicycle craze seems to be raging now as fiercely as it does here. The question of costume has caused more commotion there than in this country, for it was even brought to the notice of parliament, where the commissioner of public works was interrogated as to the rules concerning bicycling in Hyde Park. No special rules were made, however, because the women who ride find a skirt rather than bloomers the most convenient. Among the most graceful of the cyclists is the Princess Maud of Wales. She is devoted to the exercise, and often is seen out early in the morning merrily taking a spin. The Duchess of Fife has taken up the fad, and it is whispered that the Duchess of York will be won over before long.

## The Agency of Microbes.

Professor Wiley says that "one of the grandest discoveries of modern science" is the agency of the microbes in enabling plants to absorb from the air the nitrogen which is the chief factor of their growth. The theory was first suggested by Pasteur, and it is thought to be fully confirmed by the researches of independent investigators. If it does not deceive expectation it will completely revolutionize agriculture. To increase the growth of plants it will only be necessary to feed their roots with water containing the proper microbes.

## Crowd Held Court.

Dr. Edmonson assures us that in the Shetland islands the holding of crowd courts is of very common occurrence. As a rule a hill or field is selected to act as a courthouse and the session commences. The proceedings are conducted in any way but silently, though as to the exact mode of procedure, whether counsel are employed or a jury impaneled no ornithologist has been able to inform us. All Dr. Edmonson tells us is that after a great deal of cawing the whole court falls upon the unhappy prisoners, and they are promptly exterminated, after which the court rises and the crows disperse, each to his own district.

## An Unappreciated Sultor.

He—"Your-er-father and mother have noticed that I am-er-calling on you quite frequently, haven't they?" She—"They couldn't very well help it."

"Are they mad?"

"Not a bit."

"Truly?"

"Certainly. They know it isn't my fault that you come so much."

## MONEY IN STOCK.

Stock raising has not proved as profitable as it should have been in Rock county this year, because of short pasturage. There is just as much opportunity however, for the application of improved methods in raising cattle, hogs and sheep as there is in making better, and there is always the same demand for the best results. The breeding can be improved and the feeding so done as to produce animals eagerly desired in the market. Secretary Morton states that the Danish bacon sold in England during 1894 brought per pound nearly 50 per cent. more than the American article, due to greater care in feeding the hogs. If the American bacon was sold at a profit, that 50 per cent was a clear additional profit which was lost to the American producer.

Only about 56,000 bushels of corn are exported as grain, but a large amount reaches the other side in the form of pork and beef. The increase in that amount depends upon the quality of the product, for refrigerator cars and cold storage rooms in vessels, as well as cattle steamers, make such exports easy. The raiser of high grade stock will have a good market at home, however, and now that the enterprising farmer is diversifying his business by raising hogs and cattle, he should remember that there is a profit in quality as well as in numbers. While increasing his herds and droves, let him improve the stock.

## BRICE IS IN EARNEST.

Brice is in the Ohio campaign heart and soul. He wants Campbell to make a good showing for that leaves the ex-governor the logical presidential candidate in 1896. Nobody should imagine that republicans have things all their own way in Ohio with Senator Brice fighting in earnest. An active and thorough campaign will be needed to insure victory. That 137,000 plurality of 1894 does not represent the relative strength of the parties in 1895, nor does the 81,000 plurality of 1893. In both of those years the democracy was under a cloud caused by the panic, but the advent of better times has helped it and has restored something like the normal political conditions. Republican pluralities in Ohio, leaving out the tidal wave years like 1893 and 1894, do not often go much above 20,000, which is not a broad margin in a total vote of 700,000 or 800,000. A broader margin than that probably will be gained in 1895. The republican tide has not yet subsided, though it is not as high as it was last year. The strength of the democratic ticket furnishes the Ohio republicans in 1895 a powerful incentive to do their best, and if they do this they will win by a safe majority.

## MAKE THE OPPORTUNITY

Mr. Roosevelt has said many good things to young men but never anything that had as much force as his own example. He is showing the young men of the country day by day, the possibility of taking an ordinary post and giving it extraordinary interest by reason of pluck, energy and administrative skill.

What Mr. Roosevelt seeks to accomplish by improving New York city government is important. Far more important is what he has already accomplished in proving to young men that ability shows itself not in securing points of vantage, but in making much of any foothold that offers.

Kentucky is groping toward the light. Her sound money democrats

seem to be in earnest in their repudiation of Blackburn, and say they will turn the office of governor over to republicans. If the state had been put in republican hands years ago, Kentucky would have saved a good many hundreds of thousands of dollars.

## THE WALLER CASE.

No American citizen who has followed the Waller case from its beginning to the present time, and who has read the accounts of affairs in China for two or three days back, can avoid the conviction that his government arouses anything but enthusiasm by its treatment of foreign affairs. The history of the Waller case is long and involved and it is impossible to judge from the reports that have reached this country whether he has been justly or unjustly sentenced. The point in the affair which is, or ought to be, galling to the people of the United States is that the representatives of our government have moved apparently with energy only when stirred by the rising indignation of this country to see whether Mr. Waller had been given an impartial trial and was rightfully imprisoned. If it is true, as stated in the reports of yesterday, that our government is about to press the affair sharply, it must be admitted that such action will be taken none too soon to save its dignity before our own people and before our nations.

One of the most interesting features of the Atlanta fair will be a building containing the exhibit of the colored people of the south, showing their advance in all directions since their emancipation. The rapid advance of the race during thirty years of freedom following closely upon a period of complete servitude is generally admitted, but it will be still better appreciated when the fruits of their progress are brought together and exhibited as the work of one people.

Hasn't the United States spent about enough money in trying to sustain the declining value of silver. The treasury is piled high with the metal, but the effect on the world at large has been insignificant. Having performed more than its duty and more than its share to prop up silver this nation is now at full liberty to take a rest.

Boss Quay seems to have been allowed to hang on in Pennsylvania because republicans thought the bosses who opposed him were not a whit better than he. When a change is made a man is wanted who is strong enough to direct affairs without recourse to disreputable expedients.

How things are coming the republican way! The democratic governor of Maryland advises Gorman's candidature for governor to withdraw, and democratic papers in Kentucky are telling the state committee to pull Hardin off the track.

Today's dispatches state that practically all the wheat crop of Minnesota and the two Dakotas has been harvested safely. The long suspense is ended and northwestern business prospects are now without apparent shadow.

## Mexican Bandits Captured.

City of Mexico, Aug. 24.—The three bandits who, at Station Alta Luz, on the Vera Cruz Railroad, assassinated Luis Miranda, the station agent, have been caught by the authorities and identified by the wife of the victim, who was herself barbarously treated by the gang. They will probably be shot.

## Knights Arriving in Boston.

Boston, Mass., Aug. 24.—The vanguard in the great host of Knights Templar in their advance on Boston arrived last night. Delegations from Illinois, Michigan and Nebraska are the principal arrivals so far, but by night the town will be pretty well filled up, it is thought.

## Guarded Germany's Emperor.

London, Aug. 24.—It is reported the unusual secrecy relative to movements of Emperor William during his visit to Lord Lonsdale at Lowther Castle was due to a hint given to the police that German socialists might attempt to attack the emperor. It is said the police had sentries to watch under Emperor William's windows and to patrol the grounds all night.

## WHY HE OBJECTS TO HORSES.

G. C. Fritz Says Anybody Would Protest Under the Circumstances.

EDITOR GAZETTE: In your paper of August 23 you say that I objected to having a horse in front of my restaurant on South Franklin street. Under the same circumstances I think you would object to any other man.

I have no objection to a horse standing temporarily or for a reasonable length of time in front of my place, but when the driver leaves him there several hours out of spite and tells me I cannot help myself, I can assure you it is exceedingly offensive, especially in fly time. G. C. Fritz.

BICYCLE SMASHED ON THE ROAD  
 Janesville Rider Comes To Grief Near Evansville at Midnight.

Two Janesville boys passed through here about 12 o'clock Thursday night on their way home by wheel. About two hours later they returned with one of the machines badly demolished. They were riding side by side several miles out, when they struck sand, and the wheels came together, and as they were riding very fast, one can easily imagine the consequences.—Evansville Review.

## Strikers Leaving Ishpeming.

Ishpeming, Mich., Aug. 24.—The miners and mechanics are leaving here on every train. Many of the strike leaders are going away quietly, and others prominent in the union contemplate leaving at an early day. This hegira of men of influence tends to weaken the cause of the strikers. It is estimated that between 400 and 500 men have already left the range.

## A REMARKABLE CURE.

A CASE OF PILES OF EIGHTEEN YEARS STANDING.

Cured by the Pyramid Pile Cure.

There are plenty of pile cures which give relief and sometimes cure a mild case of piles, but there is only one which can be depended upon with certainty to cure obstinate, long standing cases, and that is the Pyramid Pile Cure.

Endorsements and testimonials are received daily from men and women whose integrity and reliability are above question and in this connection a letter received from the Rev. Jas. H. Westbrook, of Bowne, Mich., may be of interest to piles sufferers who have sought in vain for a cure. He says:

I have used the Pyramid Pile Cure and I know that it is all that is claimed for it. I had been troubled with piles more or less for about eighteen years and I had tried other remedies, but the piles grew worse until about ten months ago I used the Pyramid Pile Cure. It gave almost instant relief and I have been free from piles ever since. Rev. Jas. H. Westbrook.

The remedy seems to act equally well in every form of piles, blind, bleeding, protruding or itching. It stops all pain almost immediately, allays irritation and removes constipation, and anyone who has suffered the annoyance and pain of a rectal trouble will appreciate the excellent results which invariably follow the first application of the Pyramid.

The Pyramid Pile Cure is prepared by the Pyramid Drug Co. of Albion, Mich., and for sale by druggists everywhere. Two sizes, 50 Cents and \$1. Sold by all druggists.

## NOT DIVORCED HERE BUT WAS IN DAKOTA

**LEW HOWARD RIDES HIMSELF  
OF HIS WIFE.**

**Case in Which the Husband Said He  
Had Suffered Cruel and Inhuman  
Treatment—Riflemen Leave For  
Camp Douglas—Ton of Copper  
Telephone Wire Here.**

**DIVORCED IN DAKOTA**—Word has been received that Lew Howard was granted a divorce from his wife at Huron, South Dakota, August 12. The case, which was highly sensational, was tried in Janesville last all. Howard claimed that his wife had treated him cruelly and inhumanly. Judge Bennett was unable to take the injured husband's view of the case, and so Howard established a residence in Dakota and based his new suit on a charge of desertion. The allegations made by the plaintiff in the case that Judge Bennett heard were that Mrs. Howard beat and abused the plaintiff being striking him with a poker threatening his life, and calling him a large assortment of names.

**LAW FOR DEMOCRATS**—Now that the recorder has taken a stand against the new Keely cure law, and charges to the republicans, it should be said that of the fourteen men sent to Wausau from Rock county, only one was a republican. The republican legislature passed that law solely to save the democratic party, but the Recorder seems opposed to anything that will add its blind followers to the light of truth and a better life.

**MANY ENTRIES**—Up to four o'clock this afternoon Secretary Polce had received thirty-two entries for the greatest bicycle meet ever held in Wisconsin. The last three entries were W. V. Wilson, Jr., of Wausau, Child of Beloit and Roy Stuart of this city.

**WHEN WE SAY TO YOU THAT YOU CAN HAVE A LADIES' shoe for \$2, \$3 and 50 and prove to you that these prices are and now are genuine our fifty cents on the dollar assertions come pretty near being honest.** Becker & Woodruff.

**MARRIAGE**—Invitations are out for the marriage of J. K. Downs and Miss Margaret Bogardus, both of this city, Wednesday evening, at the home of the bride's parents, Mr. and Mrs. August Bogardus, 159 South Franklin street.

**BAND TO MEET**—President Horning of the Imperial band requests all members of that organization to meet at the band room at 7:30 o'clock sharp tonight, as business of importance will come up.

**SHOW**—"Greased Lightning" was re-dressed by the Ferris Company at the Myers Grand last evening and pleased a good sized audience. "Peck's Bad Boy" was the bill at the matinee this afternoon.

**TELEPHONE "GRUND"**—Local lines were working today on the telephone ground wire which is being run the city limits, so as to be free from electrical disturbances caused by street cars.

**METALLIC CIRCUIT**—Workmen have begun on the metallic circuit between Janesville and Beloit. A ton of copper wire has been received here with big supply of insulators and fittings.

**EVANSVILLE THIBTS**—Lumber wags well loaded with bottled beer and their way from this city to provision Evansville nearly every day during this hot weather.

**RIFLEMEN LEAVE**—Captain Joe Whitely and C. H. Gage left for Camp Douglas this afternoon. The contest positions on the state rifle team begins Monday.

**WE WANT THE ROOM** in our dress goods store for new goods and in the next two days will close out many at less than half price. Bort, Bailey & Co.

**OUR DRESS GOODS** sale at 39 cents has been a success, and to keep the sale for two days more we will add many sh and better bargains. Bort, Bailey & Co.

**GOOD DRESSERS** cannot afford to miss opportunity to select their fall fashions from the largest and handsomest stock of woollens in Wisconsin. Bolles, Bailey & Co.

**GOOD SPEAKERS**, and music by the Imperial band at the Federated Trades picnic, Mayflower park, Monday, September 2. Keep the date in mind.

**1.25, 75 cents and 50 cents** dress goods going at 39 cents for two days more. We have added fresh and better bargains to the line. Bort, Bailey & Co.

**MANY THRESHERS**—A number of threshing machines passed through this city this morning from Richmond, Ill., to the Dakotas.

**THE CASE OF BOGARDUS** against the N. W. railroad company was argued yesterday until 2 o'clock on Monday.

**MANY GIPSIES**—The police reported bands of gypsies wandering through the city this summer than in previous years.

**NUMBER COMING**—Three big cars of lumber from the north arrived in the city today, consigned to the local cigar factories.

**WHEELERS OUT**—A number of wheelers left the city this afternoon for Lake Geneva, where they will spend the day.

**ATINEE**—Peck's Bad Boy was presented this afternoon at the opera by the Ferris Comedians, 595 St. being sold.

**PECK HAS A LARGE STOCK** of children's clothing all sizes; it's almost time for

school to open and you must fit them out; our 50 cent on the dollar prices makes it easy and cheap for you to cover the feet. Becker & Woodruff.

**FOR SALE**—A second-hand square piano for \$30, at the Wilson music house. Rooms Court Street block, second floor.

**SOCIAL**—The Y. P. S. C. E. of the Presbyterian church gave a very pleasant social at the church parlors last evening.

**CAR LAID UP**—Car No. 2 of the street railway company, is receiving a general overhauling at the repair shops.

**BIKES FOR MESSENGERS**—Local bank messengers have adopted the wheel, and now use it in making daily collections.

**WE TAKE YOUR MEASURE** and warrant you a fit on pants for \$3.75 and \$5. See our large ad. Frank H. Baack.

**MUCH MUSIC**—Between the street piano and the Italian band there was plenty of music today.

**FOR SALE**—A bicycle nearly new. Will be sold cheap. Enquire at store Brown Bros. & Lincoln.

**NEW CAR**—A mail car was attached to the accommodation this morning it being No. 1324.

**HIGH GRADE bicycle** comparatively new, for sale cheap. Randall, 61 W. Mil. St.

**WHAT YOU GOING TO DO** with all those goods? "Sell em." Bolles, the tailor.

**TWO WHITELIGHTERS ARE JAILED**

President Griffin and Secretary Nash Sent to Jail to Get Dry

John Griffin, alias "Dab" Grand High President and Thomas Nash, Grand High Official Secretary of the Whitelight club were "trun into jail," to use their own expression, last night, and this morning, Officer John Hogan made complaints charging both illustrious gentlemen with being intoxicated. The court found that Officer Hogan told the truth and both clubmen will spend five days in jail. The Whitelight club is now but a remnant of its former self, for between the Keely cure law, the warrants that keep some away from town, and the police who clap the remaining members into jail, this great organization, like the tribes of Lo, the poor Indian, is dying of the dry rot of civilization and soon will cease to be. Ruat coelum! Vale Whitelighter! Requiescat in pace!

**JOHN W. HOBSON PASSES AWAY**

Was a Prominent Figure in City Affairs During Early Days

John H. Hobson, prominent in Janesville affairs during the early days, died at his residence 1870 Wesley avenue, Evanston, Ill., August 14. He was seventy-one years of age. Mr. Hobson will be remembered by many old residents as a member of the board of education in the days when the building of the Jefferson school in the Third ward was proposed. He was among those who fought the project and he with one other member broke the quorum by walking out during a critical meeting. They were brought back by the city marshal under orders from the president of the board. The board went ahead, closed up the business concerning the school and then expelled the two members and adjourned.

**ELBOW BROKEN OVER A BEAM**

Little Leonard Marsden Badly Hurt By Falling From a Ladder

Dr. James Mills was called to Albion Prairie to care for ten year old Leonard Marsden, who was hurt in a peculiar way. The lad fell from a ladder striking his elbow over a beam in such a manner as to leave him suspended, his whole weight falling upon the arm. The result was a bad fracture just above the elbow joint, some of the broken pieces of bone almost protruding through the flesh. Chloroform had to be used on the patient during the operation.

**HANSON COMPANY GET THE JOB**

Local Concern Will Make Some of the High School Furniture

The Hanson Furniture Company were this morning awarded the contract to make the tables, book cases, etc., for the new high school building. These fittings had to be built to order and are outside of the seating contract which was awarded some time ago. Such of the desks in the old high school building as will not be used when the new building is opened, were being taken up and moved to the latter structure today.

## WAS MURDER DONE IN MAGNOLIA WOODS

**GRAVE MYSTERY NOW LOOKS  
VERY SINISTER.**

**Aged Man Is Missing From Sun Prairie and the Hatchet Found In the Grave Had Blood and Gray Hair On It—Strange Circumstances Are Brought to Light.**

More mystery and more indications of foul play were developed in the Magnolia "grave case" today.

Blood and gray hair were matted on the hatchet and the police of that village have been notified that an aged man has been missing from Sun Prairie, about thirty miles from Evansville.

The disappearance and the hair on the hatchet are coupled together and the conclusion reached by many people is "murder."

The circumstances of the finding of the open grave are still fresh in the public mind. Mr. Bump the man who owns the farm, on which the find was made was searching for some lost hogs and ran across the grave. It had been dug in a spot well calculated for such a purpose as it was entirely hidden from view, except on one side. Close beside the hole was the smoldering embers of a camp fire, and the shovel with which the grave had been dug lay where it had been dropped. At this time there was nothing in the grave, and although the residents of that part of the country were much mystified, they thought nothing of the find.

**Grave Was Re-visited.**

Then came a surprise party that made the people catch their breath.

The grave was afterward filled in.

The next time the spot was visited, it was found that the hole had been dug for a purpose. Someone had visited it in the night, thrown the earth back, and carefully placed the sods back in position. The man who made the discovery at once hastened to inform the neighbors and a searching party at once went out to the scene. They lost no time in digging into the grave and their search was rewarded by finding a bloody collection. A man's coat sleeve was the first thing uncovered, and further search brought the whole suit to light. With it was also found a white shirt, a pair of shoes and a hat. Next they uncovered a knife and a hatchet, and the searchers recoiled in horror. On the blade of the hatchet there was some dried blood and a few grey hairs. The searchers at once got the things together and took them to Evansville, where they were critically examined at the office of Dr. Charles Smith. The shirt was rolled up inside the suit, and showed fresher stains than any other articles found.

**Think It Is Murder**

Foul play was the opinion of every one who inspected the clothing, as no person would go to the extreme trouble of digging a grave in that stony bluff for a joke, it was argued. Then the people began to compare notes. Clinton Moore, a farmer living near the bluff road, reported seeing two suspicious looking characters drive by his place at a rapid rate early yesterday morning. He thought nothing of it, however, until he was told of the grave mystery. The men drove westward, and as yet their whereabouts are not known.

City Marshal Charles Brink was at once notified and began investigating the affair in hopes of tracing it out. Then word was received that an elderly man was missing at Sun Prairie, which is about thirty miles from Evansville. Marshal Brink was in Janesville last night and left for home on the early train this morning. He is inclined to scout the foul play theory and said that reports sent to Chicago papers, notably the Times-Herald, were, in his opinion too highly colored. In the meantime, many people refuse to believe that such is the case and insist that a great mistake was made when the grave was first discovered, is not disclosing the facts to the authorities. A number of people have been out to the grave and all kinds of reports are being received. Great excitement prevails among those living near the scene. The clothes that were found in the grave were quite new, but were not thought to have been brought in Evansville.

**MRS. LEONARD NOW MRS. SMITH**

Marriage Performed in Chicago—Groom Is From Charles City, Iowa

Janesville friends of Mrs. Ella Leonard will extend good wishes over her marriage to G. Smith of Charles City, Iowa. Mrs. Leonard who received a divorce from W. H. Leonard, the former publisher of the Recorder about three years ago, wrote to Mrs. John Kay a day or two ago announcing that she was to be married and that she would go to Charles City on her wedding trip. The license was granted in Chicago Wednesday. Charles City it will be remembered, was Mrs. Leonard's former home.

**To the Public.**

In this exceptionally dry time when danger from fire is very great, and the fire protection of the most importance to the city, the water company desires to repeat the request made by the chief engineer, that all hose in use when the alarm of fire is sounded, to be at once shut off. The large number of sprinkling hose in use in the evening would greatly tend to reduce pressure during a fire, and the company requests this assistance from water takers, for the benefit of property owners. ## Y. M. C. A. HOME OPEN AND MANY LOOK IN

**MANY PEOPLE GO THROUGH  
THE BUILDING.**

**Secretary Kline As Happy As a Boy** With New Boots—Three Bed Rooms in the Building Have Been Engaged—Money All That is Lacking.

People have said "Ah!" and "Oh!" and "Why!" to Secretary J. C. Kline all this afternoon.

And Secretary Kline? Oh, he just acts as if a new Y. M. C. A. building—one of the prettiest in the state—was opened every day or so here in town. He acts that way as long as anybody is looking, but three small boys saw him go around behind the building about 2 o'clock and hug himself and say:

"Never was one like it."

He was justified in his enthusiasm, for Janesville's Y. M. C. A. home is certainly a beauty. It was shown to fully three hundred people today, and they all went away enthusiastic. State Secretary F. E. Anderson, of Milwaukee, was one of the best pleased.

Except for portions of the basement and the third floor, the building is finished in hand-rubbed oak. In the reception room on the first floor is a handsome fire place given by Inman & Ballard. The secretary's office, a big reading room and a cloak room occupy the front of the first floor.

The gymnasium is the height of two floors and gives promise of ample light and ventilation. Preparations have been made for shower and tub baths in the basement. These will be put in later and the walls throughout the building frescoed.

Steam heat and electricity and gas make the bed rooms on the third floor desirable. Three have been engaged.

"All that is lacking is money," said Secretary Kline, this afternoon. "As soon as Janesville people pay their subscriptions the building can be opened."

## IN A CHINESE THEATER.

## Law Against Having Women on the Stage Is Rigid and Unalterable.

We entered the building assigned to "The Ascending Luminous Dragon" by a small side door and proceeding for some distance along a very narrow, whitewashed passage and down a flight of steep and narrow wooden steps we arrived at the kitchen of the establishment where "Celestial" cooks were busily preparing savory (?) dishes for the performing company. Our place, however, was not there, so on we went up two more flights of equally steep, dark and uninviting stairs. Through a door at the top we walked unceremoniously into the "holy of holies," otherwise the "green room." Here the actors were in various stages of personal adornment, some applying cosmetics, others dressing, while many more, smoking and chattering, were rehearsing their peculiar parts, which to our untutored eyes, seemed to be composed of the most absurd and extravagant antics. Here and there were scattered small tables, around and upon which those of the performers whose parts were over listlessly reclined. Habillments and garments of wonderful cut hung around the walls and were scattered about the floors and tables in reckless profusion, while huge chests containing "property" were deposited at intervals around the room. From there was the direct approach on to the stage.

The artists were exclusively Chinese, and, despite the desperate makeup, all men. No woman is allowed on the stage of a Chinese theater in any capacity whatever. Strange as it may sound, the omission is, however, hardly noticeable, for the get-up of the men impersonating female characters is so perfect that it is with difficulty one can really be convinced that the unalterable law on the subject has not been infringed. Nevertheless, in its stern rigidity it is as unalterable as a law of the Medes and Persians.

## CHENEY AN ANGEL.

## Blaine's Old Paper Tells an Amusing Story for Frye.

That banquet given in honor of ex-President Cheney of Bates, Wednesday, was all the more felicitous for having Senator Frye as its toastmaster. A report of the proceedings includes the following anecdotes related by Mr. Frye: "He (President Cheney) was always a beggar, and yet never seemed to beg. If he left you with your check for a thousand dollars in his pocket, you felt as if you had been entertained by an angel unaware."

"One time he came to Washington and asked me to introduce him to Senator Stanford. I took him to that gentleman's house and introduced him to the Senator and his wife—and left him."

"The next morning Dr. Cheney called on me and I asked him how he got along with Senator Stanford. He said the Senator was a fine man to meet."

"Did you do any begging?" I asked.

"Not much," said he, "I did not say much about the college."

"Did you get anything?"

"Yes, I got \$1,000."

"At the senate I saw Stanford, and on asking about Dr. Cheney's call he said: 'No, he did not say much about the college, and he is a fine man.'"

"Some time after this Senator Stanford said to me one day: 'I have just sold a colt for \$3,500. I have sent \$1,000 to a school in Iowa, and I shall keep \$500 for pocket money, and, by the way, Senator, that Dr. Cheney is a delightful man, will you please take my check for \$7,000 and forward it to him.'"

## RAT-CATCHING CLAMS.

## Bivalves That Didn't Propose to Be Devoured by Piebald Vermin.

They tell big stories about the feats of Puget Sound clams, but the one told by Edward A. Chase of the North Pacific Fish Company is just a trifle ahead of most of them, says Tacoma Ledger. Saturday morning when Mr. Chase went into his warehouse he heard a rustling in a box of clams. On investigating he found that a rat had invaded the box, and just as he approached, the jaws of a monster clam shut down on the rodent's tail, holding it fast. The rat squealed, but the clam held it tight. Mr. Chase, anticipating the comment of friends who would cry "clam story" when he would relate the circumstance, called witnesses, and then set about extricating the imprisoned rat. The result was that the rat was released, but got away minus an inch of his tail. An hour or so later Mr. Chase returned to the warehouse to find that another daring rat had ventured into the box, and in an attempt to pull some of the clams out of the shell with his forefoot had also been made a prisoner by the clam shutting down on the member. For several hours the firmly attached pair were exhibited, and then the rat was killed.

## Inconveniently Popular.

At one time the Duke of Wellington's extreme popularity was rather embarrassing. For instance, on leaving home each day he was always intercepted by an affectionate mob, who insisted on hoisting him on their shoulders and asking where they should carry him. It was not always convenient for him to say where he was going, so he used to say: "Carry me home, carry me home," and so he used to be brought home half a dozen times a day a few minutes after leaving his own door.—Life of Gen. Sir E. B. Hamley.

## Nasturtium.

Not all admirers of the beautiful nasturtium have given thought to the derivation of the name. Nasturtium is from two Latin words meaning "nose" and "to torture," in allusion to the tendency of the pungent blossom to cause him who bites it to make a wry face.

THERE is no doubt, no failure when you take DeWitt's Colic & Cholera Cure. It is pleasant, cures promptly. No bad after effects. C. D. Stevens.

You Don't Have to Swear Off says the St. Louis Journal of Agriculture in an editorial about No-To-Bac the famous tobacco cure. "We know of many cases cured by No-To-Bac, one, a prominent St. Louis architect, smoked and chewed for twenty years; two boxes cured him so that even the smell of tobacco makes him sick." No-To-Bac sold and guaranteed by E. B. Heimstreet. No cure, to pay. Book free. Sterling Remedy Co., New York or Chicago.

Children, especially infants, are soon run down with cholera infantum or "summer complaint." Don't wait to determine, but give De Witt's Colic or Cholera Cure promptly, you can rely on it. Use no other. C. D. Stevens.

## It Makes Us Shudder

To think of chills and fever. But when we really have it—supposing us to be so unfortunate—our frames undergo a series of shocks which bear a close analogy to those produced by an earthquake. Roasted next, we are drenched by perspiration afterward. Truly a delectable condition of things. But how easy to remedy and how speedily! The certain means of relief is Hostetter's Stomach Bitters. Tested as well where malaria is prevalent in its most virulent forms, as where it takes on a milder guise, it has proved itself to possess both a remedial and preventive efficacy of the highest order. In South America Guatemala, Mexico and the Isthmus of Panama no less than throughout the North American continent, its success as a means of forestalling and relieving malarial disease has been unparalleled. Use the Bitters for dyspepsia, constipation, bilious and kidney trouble, nervousness and debility.

Chautauque Lake Excursions Every Day Round trip to Chautauque Lake tickets good until October 31, are now on sale via the Lake Shore & Michigan Southern railway. Handsomely illustrated descriptive book with any information desired will be sent on application. J. B. Hurley, T. P. A., Milwaukee, Wis., C. K. Wilber, west. passenger agent, Chicago.

# Narcoti-Cure

It Cures while You Continue the Use of Tobacco.

The greatest discovery of the age!

A certain, pleasant, permanent cure.

A lifetime's suffering ended for \$5.

Why smoke and spit your life away? Why suffer from dyspepsia, heartburn and drains on your vital forces?

Stop using tobacco, but stop the right way

Drive the nicotine from your system by use of this wonderful remedy.

Narcoti-Cure is warranted to remove all desire for tobacco in every form, including Cigar, Cigarette and Pipe smoking, Chewing and Snuff Taking.

Use all the tobacco you want while under treatment, and in from four to ten days your "hankering" and "craving" will disappear—the weed won't taste good.

Then throw away tobacco forever

Narcoti-Cure is entirely vegetable and free from injurious ingredients. It never fails to give tone and new vigor to the weakest constitution.

Remember Narcoti-Cure doesn't deprive you of tobacco while effecting a cure; doesn't ask you to buy several bottles to be entitled to a guarantee; doesn't require a month's treatment; and finally, doesn't enable you to stop tobacco only to find yourself a slave to the habit of tablet chewing.

With Narcoti-Cure, when you are through with tobacco you are through with the remedy. One bottle cures.

Send for book of prominent testimonials like the following:

HUNTINGTON, Mass., Mar. 13, 1895.

The Narcoti Chemical Co., Springfield, Mass.

Gentlemen:—I have used tobacco for over twenty-five years, chewing and smoking every day from 7 a. m. to 9 p. m. stopping only for meals.

On Monday, February 4, I called at your office in Springfield, and bought a bottle of the Cure which I used as directed and on the tenth day the desire for tobacco had left me and has not returned. I did not lose a meal while taking the cure. My appetite has improved and I consider Narcoti-Cure a grand thing.

Very respectfully, CHAS. LINCOLN.

Mr. Frank H. Morton, of Chicopee Falls, Mass., late Inspector of Public Buildings for Massachusetts, says:

I used tobacco for twenty-five years, and was a confirmed smoker. In just eight days' treatment with Narcoti-Cure I was through with tobacco, in fact the desire vanished like a dream.

Very respectfully, FRANK H. MORTON.
